

CAMPING CONCENTRATION

Supplies: glue
scissors

[32 - 7 inch paper plates](#) (colored) if you want. I used yellow for one set and orange for the other set for two games. Make sure all of them are the same color for one game.

NOTE* paper plates must be used. Plastic and Styrofoam plates show the image through them.

- Print 2 copies of the pages of pictures below
- Cut out each picture on the lines and glue them onto the middle of the “eating side” of size 7 “paper” plate.

- Let them dry. Make sure you don't pile them on top of each other while they dry or they will stick together.

When they are dry your Camping Concentration game is ready to play.
